

Powering Africa. Energy for Growth.

September 8th, 2015 - Conference Centre Oregal EXPO Milan - 5.00 pm

Powering Education represents one of the first attempts to draw the linkage between access to renewable energy sources and education

As the project enters its second phase, a panel will explore how investments and innovation in the field of energy access in Sub-Saharan Africa represent a catalyst to accelerate sustainable growth in the Continent with a concrete impact on several social factors such as access to education, women empowerment and health improvement.

Welcome: **Patrizia Grieco**, Chairman, Enel Group

Introduction: **Ernesto Ciorra**, Chief Innovation & Sustainability Officer, Enel Group

Powering Education: **Fadi Hassan**, Assistant Professor of Economics, Trinity College Dublin
